

Machine Applique Class w/Sherrie class fee: \$19.00

Sat. Sept 2/9:30-12:30 or Mon. Sept. 18/9:30-12:30

Learn one of the newest, quickest and most successful techniques for applique using your machine and an invisible tiny 1/16" zig zag stitch.

All you need are a machine in good working order and an open toe foot that fits your machine. It's fun, easy, addictive and a very useful technique.

Required Kit for the class contains: pattern, fabric, fusible and (1) spool of thread.
Cost: **\$6.00**

Supplies:

A machine in good working order that has a zig zag stitch. In addition, the machine needs to be able to change stitch width and length. Be familiar with machine and bring any manuals you think you might need. Sit down with your machine before class and find the setting to get your tiniest zig zag, example: ~~~~~~

Write the settings down right then and bring to class and you'll be ready for fun. Open toe foot for your make of machine.

8 Schmetz Microtex machine needles

Med. size sharp paper scissors.

Several bobbins to change thread color if needed.

Good, Sharp to the point, medium and small size scissors

Mechanical pencil or good sharp point # 2 for tracing.

DMC spools of machine embroidery thread are my favorite thread for this technique. Look and see if you have any of these three colors. DMC #312(bright royal blue) and DMC #725(med. Yellow) and Mettler, article 9240 #1148 (lt. yellow green). A fourth color (brown) is supplied in the kit.

We have these threads at the shop for purchase if you wish to match your fabrics. Good sharp, thin straight pins.

Any other sewing supplies you like to use.
